

OPPORTUNITIES FOR OUTSTANDING ECONOMIC CONSULTANTS

Indecon is seeking suitably qualified individuals with experience in economic research, consultancy, or public policy to fill a number of vacancies as economic consultant in our practice. We are particularly interested in hearing from candidates who have experience in quantitative areas, econometrics, data analysis, spreadsheet modelling, impact evaluation, cost-benefit and cost-effectiveness analyses and regulation. The successful candidate will fulfil the Economic Consultant role with Indecon in our Dublin practice. There are also opportunities for advancement within the practice.

Requirements

Indecon is seeking individuals who are educated to master's degree or PhD level with a qualification in Economics, Finance, or a related discipline. The ideal candidate will have an exemplary academic record with first class honours qualifications from a leading Irish or international university. The ideal candidate will have relevant experience of working in economics or an economics-related role in the private sector, consulting, or in the public sector, a research organisation or university.

Candidates will be expected to be able to demonstrate the following skills and expertise:

- Strong analytical and problem-solving skills
- The ability to work effectively in a team
- Comfortable in working in an environment with client-driven deadlines for deliverables
- Experience working with Microsoft Word, Excel and PowerPoint
- Experience with data analysis and manipulation, ideally using STATA and/or R
- The ability to manage your time effectively across project commitments

The ideal candidate will also be able to demonstrate skills and experience with one or more of the following:

- Economic cost-benefit analyses
- Economic impact assessments
- Econometric modelling
- Policy evaluation
- Business case development
- Data analytics and large dataset modelling
- Spreadsheet modelling
- QGIS and/or related spatial modelling
- Finance and financial modelling
- Regulatory economics
- Due diligence
- Strategic planning

Experience undertaking data analysis and economic modelling using STATA would be an asset, as would experience with spatial analysis using programmes including QGIS.

Summary of the Role

The role of economic consultant will involve working on a range of projects for our clients across the public and private sectors both in Ireland and internationally. This may involve undertaking economic analysis and advising clients across a range of areas including capital appraisal, policy impact evaluation, counterfactual impact evaluation modelling, advice to commercial clients, regulatory economics, economic impact assessments and strategic analyses.

As an Economic Consultant, successful applicants will be expected to work effectively with both colleagues and clients, using their knowledge of economics to address real world problems.

The role of economic consultant offers an opportunity for the successful candidates to work in an environment that offers variety in the nature of work as well as the chance to make a contribution at the highest level to public policy and businesses in Ireland, the EU and internationally. We also offer all employees a supportive and flexible working environment.

Indecon will provide the successful applicant a competitive starting salary with opportunities for advancement. There will be an opportunity to work closely with an exceptional team of senior economists. Specialist training will also be available.

How to Apply

To apply, please send your application by e-mail to Brian O'Connell, boconnell@indecon.ie or Greg Swinand, gswinand@indecon.ie.

When contacting us you should include:

- A cover letter indicating your economic interests and motivation for working at Indecon.
- A curriculum vitae:
 - Describing your academic background and grades;
 - Describing your employment record and current salary;
 - Names of at least two referees.

Thank you for considering Indecon and we look forward to hearing from you.
